

## JUSTIFICATION FOR CHANGES

Updated Storm Water Management Program: Updates to the Storm Water Management Program must be done in accordance with Section 4.4 of the MS4 Permit.

This Storm Water Management Plan represents a change from North Logan City's previous plan due to the significant changes required by the revised General Permit for Discharge for Small Municipal Separate Storm Sewer Systems (MS4s) – Permit No. UTR090000.

Essentially all of the municipalities previous BMPs, Measurable Goals, Inspection forms, and other documentation forms and methods have been modified to meet the requirements of the revised permit.

**Certification and Signature.** (6.8.3) (by Principal Executive Officer or Ranking Elected Official)  
I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
